

# The Eleventh International Conference on Surface X-ray and Neutron Scattering

July 13 - 17, 2010

Northwestern University, Evanston, IL

On Lake Michigan, 10 Miles North of Downtown Chicago

Northwestern University

Chicago

Advanced Photon Source (APS)

## Topics:

- Interfaces in energy (energy storage, electrochemistry, geochemistry, catalysis)
- Interfacial reactions (growth, processing)
- Surfaces and interfaces of liquids and soft condensed matter
- Membranes and biologically active interfaces
- Emergent interfacial materials properties (magnetism, multiferroics, spintronics, etc.)
- Novel instrumentation/theory
- Interfacial molecular dynamics
- Nanoscale-materials (structure and dynamics)
- Kinetics in 2D self-assembly
- Interfacial coherent X-ray scattering and imaging
- New horizons and opportunities from new facilities

## SXNS-11 Co-Chairs:

Michael Bedzyk      Northwestern University, USA  
John Ankner        Oak Ridge National Laboratory, USA  
Paul Fenter         Argonne National Laboratory, USA  
Jin Wang            Argonne National Laboratory, USA

## Program Committee:

Paul Fenter         Argonne National Laboratory, USA  
Till Metzger        European Synchrotron Radiation Facility, France  
Ben Ocko            Brookhaven National Laboratory, USA  
Osami Sakata        Spring-8, Japan  
Sushil Satija        National Institute of Standards and Technology, USA  
Brian Stephenson   Argonne National Laboratory, USA

## International Advisory Committee:

Jens Als-Nielsen    Niels Bohr Institute, Denmark  
Helmut Dosch        DESY, Hamburg, Germany  
Doon Gibbs         Brookhaven National Laboratory, USA  
Chia-Hung Hsu      National Synchrotron Radiation Research Center, Taiwan  
Eric Isaacs          Argonne National Laboratory, USA  
Jeff Kortright        Lawrence Berkeley National Laboratory, USA  
Mikhail Kovalchuk   Kurchatov Institute, Russia  
Hans Lauter         Institut Laue-Langevin, Grenoble, France  
Chuck Majkrzak     National Institute of Standards and Technology, USA  
Gerd Materlik        Rutherford Appleton Lab, Oxfordshire, UK  
Hideki Matsuoka    Kyoto University, Japan  
Harald Reichert     European Synchrotron Radiation Facility, France  
Ian Robinson        University College London, UK  
Michele Sauvage    SOLEIL, Saint Aubin, France  
Andreas Schreyer   Geesthacht Neutron Facility, Germany  
Sunil Sinha          University of California, San Diego, USA  
Toshio Takahashi   University of Tokyo, Japan  
Metin Tolan         Universitat Dortmund, Germany  
Friso van der Veen   Swiss Light Source, PSI Switzerland  
Hoydoo You          Argonne National Laboratory, USA  
Jorg Zegehnagen    European Synchrotron Radiation Facility, France
